Plantu: Your Plant Health Companion

Plantu is an innovative mobile application designed to revolutionize the way you manage the health of your plants. With its cutting-edge technology, Plantu provides accurate and efficient disease detection for a wide range of plant species.

How it works:

1. Capture Leaf Image: Simply take a clear picture of a plant leaf using your smartphone's camera.
2. Advanced Analysis: Plantu utilizes state-of-the-art machine learning algorithms to analyze the leaf image and extract key features.
3. Disease Prediction: The app compares the extracted features with a vast database of plant diseases to determine the most probable disease affecting your plant.

How It Works

AR technology used to scan plants for health

Our application uses the latest AR technology to scan and recognize plants in your home. After scanning any plant, a diagnosis will appear with a special program of treatment and improvement of the plant's vitality.

Choose a plant

Select the plant you want scan for health

Scan a plant

Place the scanner at the height of a plant and scan

See the results

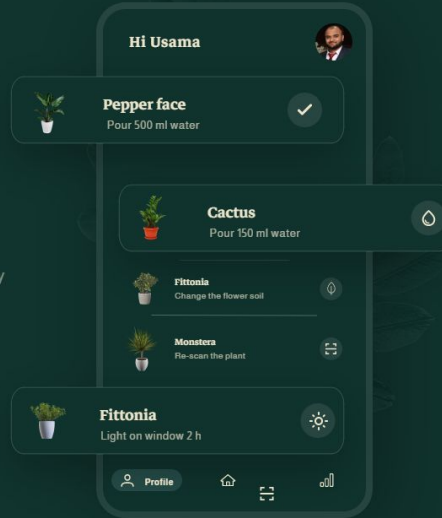

See what you can do to improve your plant care

How It Works

Daily tasks that remind you of what plant to care for

A daily to-do list will help you remember what needs to be done each day to help your plant. Use the calendar and set the necessary reminders yourself. It's so simple!

How It Works

Plant recognition and plant care steps

In addition to scanning for plant health, you can use a plant recognition scanner. Each plant has its own care steps. Check what your plant needs and take care of it properly so that it is with you as long as possible.

- Water level indicator
- Earth Ph indicator in flowers
- Check the level of air humidity

See what user say about us, how they use the app. What are the greatest advantages of the application. What functionality is the most useful? Any feedback is appreciated!

Ayleen Lawrence

This app saved all my home flowers! it wouldn't have happened without your help.

Josh Austin

Thanks to this application, I learned to take care of all the plants I own. That's so cool!
